

Koss Earbuds Teardown

Koss Earbuds Tearup

Written By: Sam n Brad

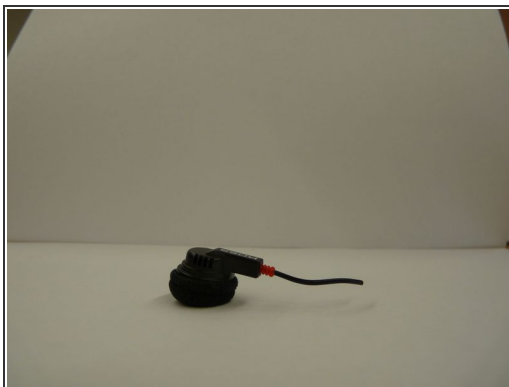

INTRODUCTION

We're going to break these headphones and show you what's inside and junk.

TOOLS:

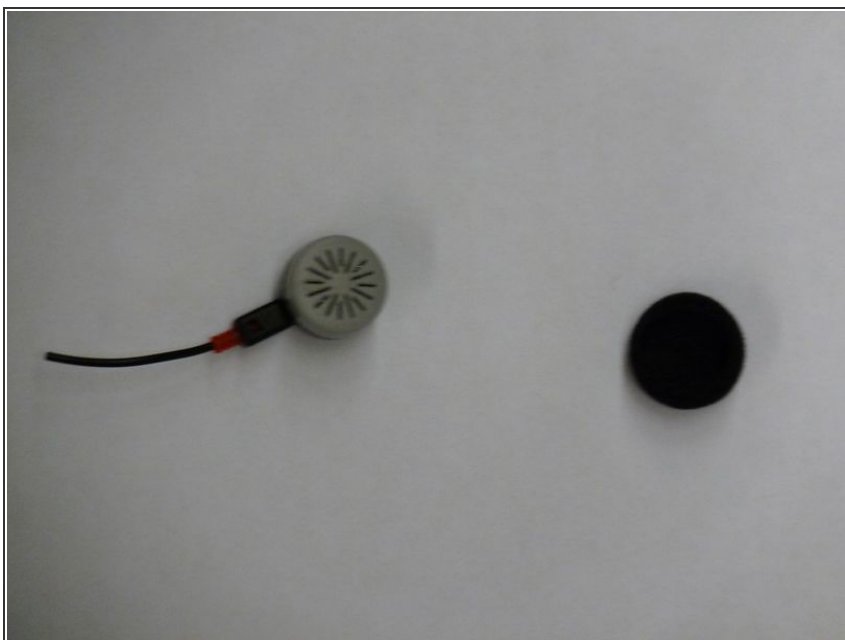

- [Metal Spudger](#) (1)
-

Step 1 — Koss Earbuds Teardown

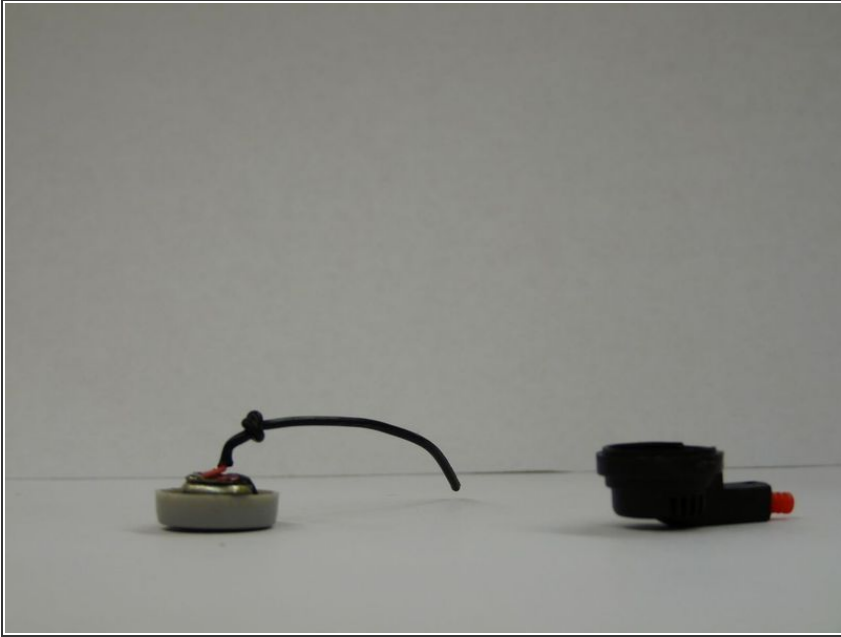

- These are the Earbuds to be deconstructed.

Step 2

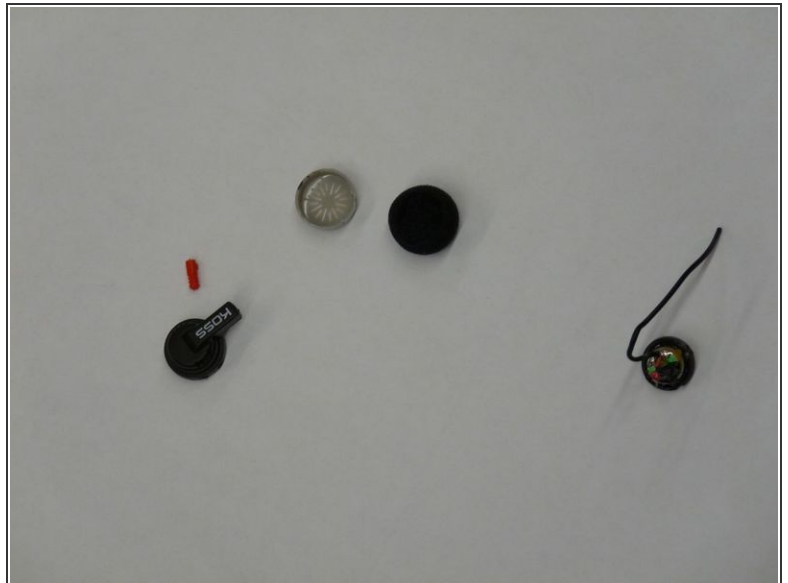

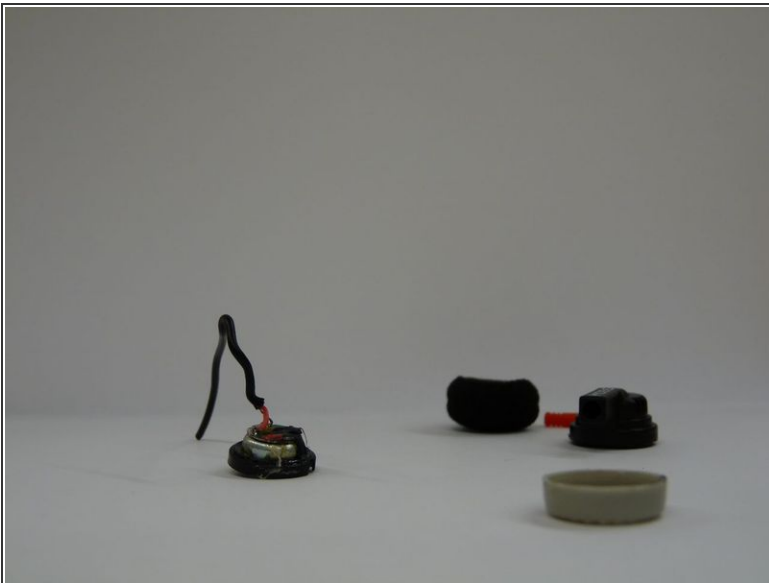

- Remove foam covering.

Step 3

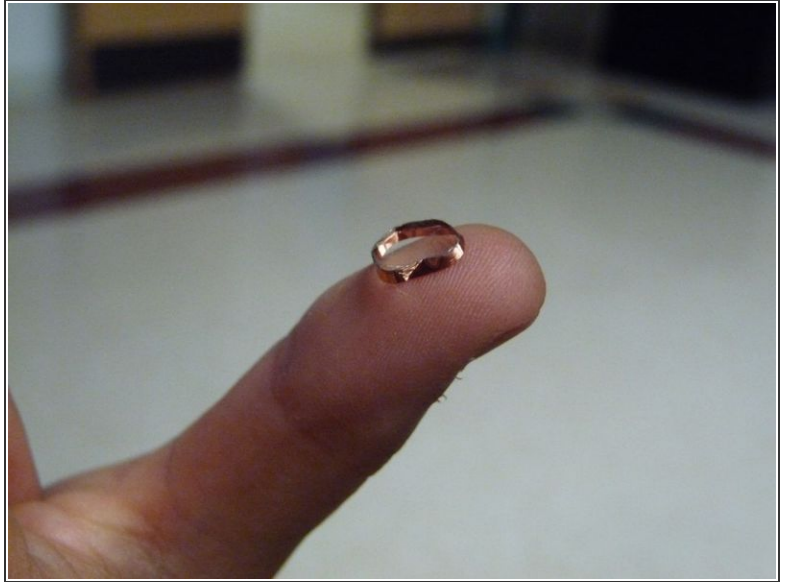

- Gently remove the driver unit and wire from the (Black) receptacle part with small pliers or suitable small hand tool.

Step 4

- Disassemble the remaining mechanical components.

Step 5

- Remove the copper driver coils.

Step 6

- Remove the permanent magnet of the headphones and youre done!! ;)

To reassemble your device, follow these instructions in reverse order.
